## Solutions - Chapter 15

## Exercise 15.3

```
library(mosaic)
a(i):
a <- 2.0429
b <- -.2821
x50 < -a/b
x50
## [1] 7.241758
a(ii): Is due to b being negative.
(b):
ilogit(a+b*20)
## [1] 0.0266203
(c):
.847-.051*20
## [1] -0.173
Less than zero!
(d): P-value=0.0051 is highly significant.
```

## Exercise 15.5

- The race of the defendant has no significant influence.
- If the victim is white, you are significantly more likely to get a death penalty.
